DIVISION OF OIL GAS & MINING

Dear Mr. Thomas:

Your notice to conduct mining related operations on mining claims, UMC serial numbers, 70963, 70964, and 292227 located in the southwest quarter, Sec. 27, T. 12 S., R. 12 W., SLBM was received on October 13, 1992 and has been accepted by this office. Your notice has been assigned case file number UTU-70647. Please use this number in any future correspondence concerning this notice.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year, please advise this office of the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Standard Operating Procedures required by the Richfield District, House Range Resource Area. Please follow these guidelines as they pertain to your operation.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. All mining claimants and operators that plan to use, store or divert water are required by Utah statute to notify the Utah Department of Environmental Quality, Division of Water Quality. Prior to the commencement of the proposed activity, all appropriate state water quality permits must be obtained from the Utah Department of Environmental Quality, Division of Water Quality, located at:

1636 West North Temple
Salt Lake City, Utah 84116-3156

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

Thank you for meeting Christina Reid of my staff on November 3, 1992. We appreciate your cooperation to work with us. We realize that you and the Chesley's anticipate future exploration work in this area. Upon completion of these activities, we recommend that the following seed mixture be used during reclamation:

- 3 pounds Russian wildrye
- 3 pounds Indian ricegrass
- 2 pounds Prostrate kochia
- 2 pounds Four-wing saltbush.

All rates are given as pure live seed. The seed weights given above are for drilling. The weight of seed used should be doubled if broadcast. After broadcasting the seed, the land should be lightly harrowed.

If you have any questions regarding this letter, please feel free to contact Christina Reid at (801) 743-6811. Thank you for submitting your notice.

Sincerely,

Rex Rowley
Area Manager
